

Professional Security for Growing Businesses

Reliable, Flexible, and Affordable.

OUR COMMITMENT TO YOU

G4S is the biggest security company in the world, but our teams operate at a surprisingly local level. We achieved our success by providing outstanding service and value to companies of all sizes, including businesses like yours.

We work in partnership with you to address your security concerns, mitigate your risks, and design a solution that fits your needs and your budget.

Our reputation is global but our service is at the heart of local business. Here's what you can expect:

A **reliable, experienced** security team offering outstanding customer service skills

An experienced **Contract Manager** ensuring the quality and delivery of the services

A commitment to be **easy to work with**

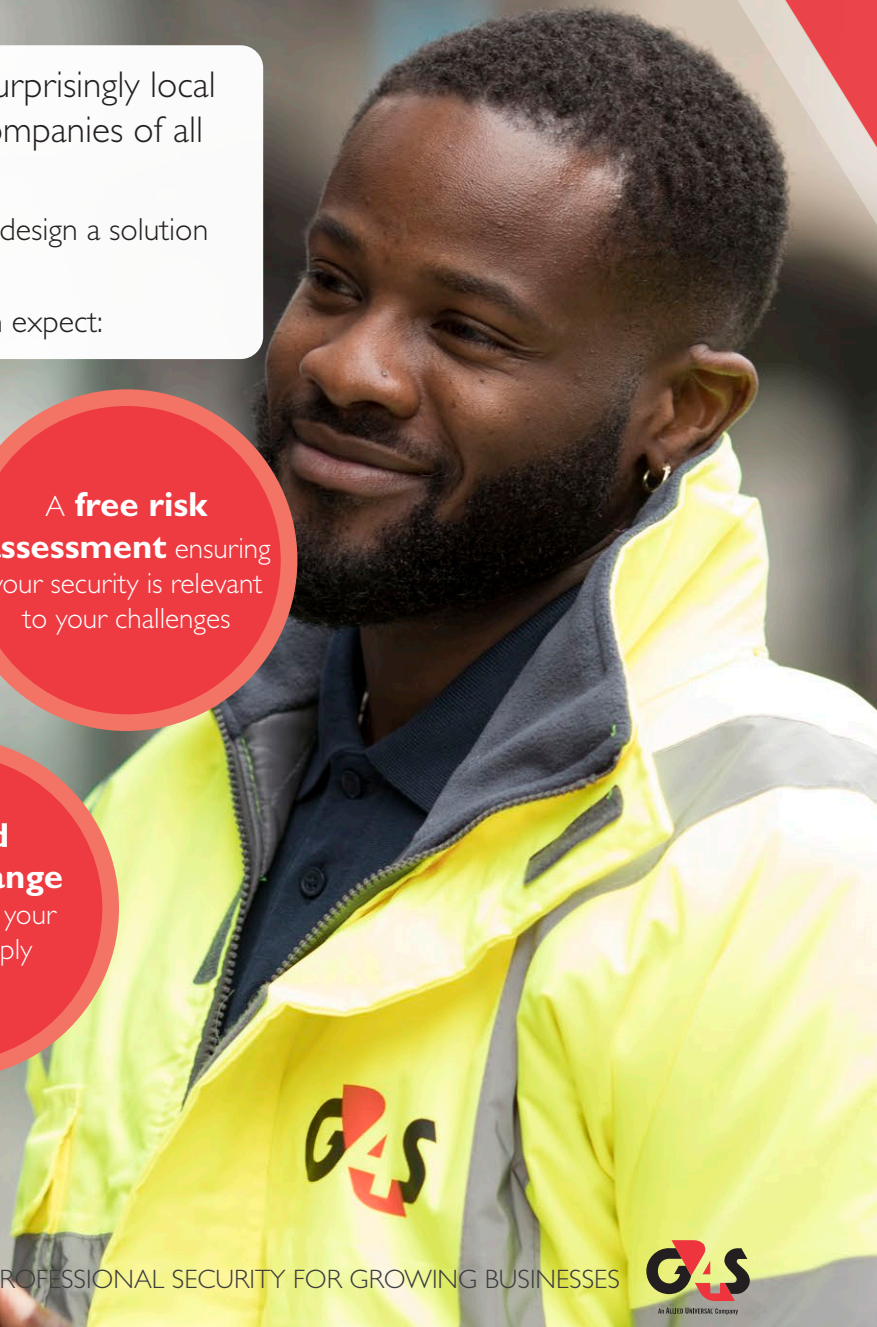

A **free risk assessment** ensuring your security is relevant to your challenges

Transparent reporting of our service delivery

A **partnership approach**, flexible to your requirements

A **broad product range** that simplifies your security supply chain

'Scalable solutions, optimum & affordable security'

Our services

Security works best when it is deployed taking an integrated approach, using a combination of expertise, security professionals, technology, and data analytics.

Our comprehensive range of in-house security services includes:

People Services

 On-site Security Professionals

 Mobile Security Patrols

 Front of House Security

Security Systems

 CCTV

 Monitoring & Response

 Lone Worker Protection

Enhanced Security

 Canine Security

 Event Security

 Secure Transportation

In security, one size does not fit all.

Security is only effective if it is relevant and fit for purpose, we always start with identifying your risks and evaluate:

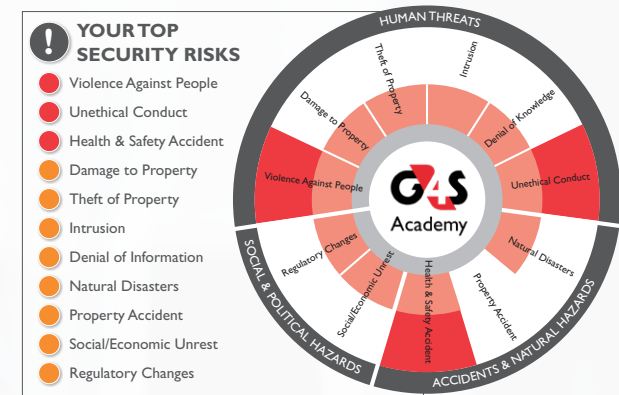

This will then enable us to make an informed decision on how best to protect it.

G4S will carry out a free risk assessment of your premises and then design a solution to mitigate your risks and match your budget.

We also have a free online risk assessment that asks you a series of questions, then provides you with an initial indication of where your security should be focused by producing a personalised risk radar report.

Start preparing now
by completing our free online
risk assessment

- 5-10 minutes to complete
- Free of charge
- Produces a Personalised Risk Report

4 FIVE REASONS WHY G4S SHOULD MANAGE YOUR SECURITY

1

WE DON'T JUST GUARD GOODS, WE PROTECT REPUTATIONS

Your assets are important to us. But your brand, values, and reputation all matter too. So we take care of both.

2

WE'RE LOCAL

G4S is big, but our roots are local. We recruit from the local community and work closely with local intelligence partners to ensure your security reflects the local threat profile.

3

WE'RE (SURPRISINGLY) AFFORDABLE

Big doesn't mean expensive. In fact our scale means we can offer a top tier service to suit all budgets. Don't believe us? Get a quote today.

4

WE'RE FLEXIBLE

From canines to cameras, asset tracking to access control, we'll tailor our end to end services to meet your needs. And if you're not sure what those needs are yet, we can take you through a free risk assessment to provide a clearer picture.

5

WE'RE THERE WHEN YOU NEED US

Our deep pool of in-house resources means we can scale up and down to cover emergencies, sick cover, or any unexpected absences at short notice - so you're never left in the lurch

Our operational management platform Javelin underpins our service delivery.

Officers record their tasks on handheld devices which is then visible, along with SLA performance and Contract administration through a simple, easily accessible web portal.
