Specialist Training & Capacity Building

G4S Risk Management Group

G4S Risk Management Group is the specialist protective services business within G4S Plc. We help our customers succeed by designing and delivering cost efficient risk management services and decision support that enables them to conduct their business safely and successfully in complex, low-infrastructure and challenging environments.

We provide integrated training solutions in a range of environments. Our clients include Governments, Non-Governmental Organisations (NGOs) small to medium enterprises, multinational corporations, media groups, and international peace and security agencies.

▪ Reliable   ▪ Innovative   ▪ Trustworthy

Who we are and how we operate

G4S training programmes are designed to build local and client capacity by enhancing functionality of clients and equipping them with the knowledge, skills and best practices needed to operate in high-risk conflict afflicted areas. We work closely with a pool of professional Subject Matter Experts drawn from military, law enforcement and aviation security backgrounds to deliver world-class training and capacity building solutions at all levels (National, strategic, operational, tactical) across the security and justice reform sectors.

- We take a blended approach to training, allowing for theory to be confirmed by open discussions, case studies and hands on experience followed by practical exercises
- We employ a project control process to ensure the project remains on time, on cost and on specification for our clients

Specialist Training & Capacity Building

Our Approach

G4S training programmes enhance the functionality of the client's capability and equips them with the knowledge, skills and best practices needed to operate in challenging or conflict affected areas. Our competencies include the development of Doctrine, Concept of Operations and Standard Operational Procedures (SOPs) as a foundation for training design in consultation and partnership with our customers. Knowledge and skills transfer is achieved through guided learning, mentoring and coaching methodologies. Robust project management and quality assurance processes ensures capability enhancement and sustainable operational success.

Key differentiators of our approach include:

- Established capability and proven track record of successful service delivery in challenging environments
- Subject matter expertise in training needs analysis and training design
- Commercial stability and global support as part of a FTSE-listed company
- Rigourous Quality Management processes, predicated on the Plan-Do-Check-Act cycle
